

I do not believe the restrictions should be eased. As it is now it is difficult to find different views to enable a person to make up his mind about topics. As it is now I tune out most TV stations and Newspapers because it's like going to the shopping mall, it doesn't matter which mall you go to, they're all the same. We listen to Canadian news, British news but seldom American news as it is difficult to find any challenging views. It's like the malls they're all the same.
